The Green Party calls on Israel to evacuate the illegal settlements within the occupied territories of Palestine.

We call on the government of Israel to dismantle the 'settlement wall'
in those territories, which has been condemned by the International Court, which divides Palestinian territories, and which deprives them of land, water, other resources and employment. The discrimination against Palestinians practiced by the Israeli government and settlers in the occupied territories needs to be addressed as a first step.

The Green Party believes that all Israelis, Palestinians, and their families should have and be able to exercise full human and civil rights throughout Israel, Palestine and the occupied territories in Palestine.
Israel must be subject to the Geneva Convention concerning the rights of individuals and communities, in the same way that other states are. The resort to 'collective punishment' in defiance of those requirements is unacceptable.

The Green Party calls on the democratically elected representatives of the Palestinian people to recognise the right of the state of Israel to exist within recognised, agreed and secure borders. It calls on the Israeli Government and the democratically elected representatives of the Palestinian people both to commit to replacement of military force with agreement through diplomacy as a means of resolution.

We support the Boycott, Divestment and Sanctions campaign. In particular, the UK government should halt all joint Israeli/UK military cooperation and approval for all arms sales to Israel.

It is good to know that we see eye to eye on these issues. If elected, Claire Lasko will definitely stand up for Palestinian rights at every opportunity in parliament.
