[www.palestinecampaign.org](http://www.palestinecampaign.org)

**To commemorate the Palestinian 1948 Nakba**

# Remember Gaza...

Hundreds of thousands of people came out on the streets in January to protest against Israel's massacre and invasion of Gaza. Over 1400 people were killed and 5000 injured, with the Israeli army using horrific weapons such as white phosphorus against a civilian population, who were trapped with no safe refuge. The world was shocked and horrified at the images of women, children and men killed and seriously injured by Israeli snipers, tanks and white phosphorus shells — and angry that the international community failed to stop the Israeli government massacre, invasion and destruction.

And the war against Gaza hasn't ended. Families have been left homeless, grieving for loved ones, battling to get essential treatment for those wounded and disabled in Israel's attack, and with children severely traumatised. Israel — which created a humanitarian catastrophe by sealing Gaza's borders — is continuing its brutal collective punishment of the population of Gaza by preventing even essential medicines and food from entering Gaza. Building materials needed to repair the damage to infrastructure and homes are being blocked. We stand in solidarity with the Palestinian people...

# End the siege now!

The Palestine Solidarity Campaign is building a mass movement in solidarity with the Palestinian people. We campaign in support of self-determination for Palestinians, and work to change government policy. Please take action now!
